

SCPA NSW Strategic Plan 2024-2026

Vision	To support the advancement and professional development of school counsellors and psychologists in NSW within school settings.		
Mission	To provide highly effective leadership for the profession, develop psychological and counselling capacity for schools, and support members with professional growth.		
Strategic Priorities	Community Build a community of practice within school psychology.	Governance Maintain strong transparency with members about decision-making processes.	Expertise To facilitate community conversations, value learning and enhance psychological expertise.
Objectives	Networking Promote and provide opportunities for active engagement of members to ensure positive contributions to our strategic priorities. Membership services Provide high-quality professional membership benefits in line with member-identified needs, PsyBA core competencies and legislative requirements. Recognition Acknowledgement of school counsellors and psychologists through initiatives.	Financial sustainability Providing value for money and sustainability will be at the core of all financial decision-making. Structural viability Annually review committee portfolios to maximise efficient service delivery to members. Future focus To provide opportunities for members that drive curiosity, resilience and flexibility.	Stakeholder relationships Establish partnerships to promote the interests of members including involvement in research. School psychology as a profession Promote school counselling and school psychology as a rewarding and satisfying profession. Consultation Liaise with key stakeholders to provide psychological expertise and guidance in the development of policies affecting members of all NSW school counselling services.
